EUGENE FLY, of Gulfport.

The old refrain: Swat the fly.

Advertised goods have to make good.

Few criminals advocate the death penalty.

An infallible sign of bad luck is a subpoena ticket.

Most men miss the best period of the day by sleeping late.

Many extravaganzas begin under the head of efficiency.

The open season for falling into the Atlantic ocean is on.

The confidence man is the guy who put the "flat" in flattery.

What most businesses require is a first-class second-class man.

Can you finish out this sentence—N-w-s-h-t-m-t-p-y-o-u-s-r-p-i-n?

Pay cash and smile; buy on credit and be out of town on the first.

Press agents are, we suppose, a useful lot but they do clutter up the mails.

Lindbergh will never make a movie star—he hasn't mixed in a scandal yet.

With opening of the baseball season last week America has returned to normal.

Resolving to do our work on time in the future enables us to get an afternoon off.

Few workers are late when the knock-off whistle tells them they can go home.

The argument about women's clothes shows you how little it takes to get up a row.

Correct this sentence: "I don't see any news in your paper but I take it to help you along."

While 1928 is leap year to the sweet young things it's just a series of jumps to the pedestrian.

The old bathing hole has the attention of the youngsters at this time of the year.

It looks like somebody set off a bomb underneath the political dwelling of Big Bill, the Builder.

The reason most smart people get into difficulties with their fellow men is because they are too smart.

A lot of well dressed people are going to find themselves all dressed up with but one place to go when the world ends.

How can you expect much civilization from a man or woman who gets a headache every time they try to read a sensible book.

It is one of the outstanding mysteries of life why a man who can keep a tank full of gasoline finds his church dues an overwhelming burden.

After hearing considerable debate on the subject we are unable to determine whether the bankers or the politicians are doing the most for the people.

We don't know which is worse, the political prognosticators or the sporting editors who tell you in April who will be on top in September.

Our extra slice of pie for this week is awarded the local citizen who has determined to save his country this year by not running for office.

The yards of Bay St. Louis are, it seems, more beautiful than ever this spring. This is one way that everybody can help to make our city attractive.

Sinclair's defense, as we understand it, for buying Fall's ranch was that he expected to get a lot of oil off the ranch. Leaving off the last three words you come pretty close to the truth.

When a merchant has a message that he wants the trading world to know he just naturally advertises the story in The Sea Coast Echo. An advertising merchant is a square-dealing merchant.

A MONUMENT TO LEE

The unveiling of the sculptured head of Lee on the side of Stone Mountain. Which occurred on the anniversary of the surrender of his army, indicates the progress being made on this memorial, which when completed, will stand out as a wonder of the world.

Few citizens of the world will begrudge the leader of the Southern armies this fitting monument. Mayor Walker, of New York, who was present for the unveiling, is quoted in the press as saying that in Lee God united the "soldier and the saint." Throughout the world his military genius is recognized and almost as universally, his greatness of spirit. As a prominent Northern newspaper says, "the evidence of his kindness of heart and his nobility of soul is overwhelming."

In no greater measure was Lee's service to his section and the United States displayed than in the years following the war and in the commendably expedient way of the South in accepting the conditions of honorable peace. By one of the most generous and magnanimous of men, Lee's spirit was shown to the world in a way that has been a source of inspiration to all who have seen it.

DEFENDS YOUNG PEOPLE.

A word of defense for the young people of today comes from Charles S. Osborn, a former governor of Michigan, who, in comparing his young friends of the present era, says, "all of them are so much better than I was, that I am ashamed of my memory."

Writing in The Outlook this former newspaper man says that "in no previous age were young people so clean-looking and beautiful and wholesome as right now." We hasten to add our approval to the observations.

Naturally, there are people right here in Bay St. Louis who are convinced that the young people "are bound for hell in a hand-basket" but they do not understand the youths around them. Of course, there are evil-minded among the young just as they exist among the old, but we are convinced that the great mass of young people today are seeking the truth and that they are doing it with less hypocrisy and secrecy than ever before.

The matter of sex immediately comes to the mind of those who condemn young people to the regions of the damned. The prevalence of crime among younger sets is cited at once. Admit it. Then look at the sober industrious young men at work in our midst, think of the assistance that they didn't get from older companions along life's highway and you will wonder how so many of them manage to keep straight.

We are for the young people. They are, we believe, trying to do the square thing and while they may grope in error they are making progress. Instead of harping upon their faults, and magnifying the example of some moron among them, let us encourage them to higher vision and assist them in getting the right perspective in life, as regards sex, marriage, money, religion and everything else.

SUPPORTING THE CHURCHES

Figures compiled by Rev. Charles Stelzle, and published in The World's Work, reveal the astonishing little that the average church member gives to the support of his chosen faith. The sociologist estimates the wealth of the United States at half a trillion dollars, with an income of approximately \$100,000,000,000.

Interesting comparisons are given as to the money spent for religious purposes by the Protestants and what the people of the nation spend for certain other purposes. For example, only \$489,429,078 went to the support of the Protestant churches last year while chewing gum got \$100,000,000; candy required \$1,000,000,000, and theaters, \$2,000,000,000. Beautifying the female took \$1,825,000,000, the public schools got \$2,171,844,689, and life insurance was supported by premiums to the value of \$3,000,000,000.

Crediting the Protestants with 22,890,210 members the church contribution averaged only \$21.38 per living member, although some denominations make a much better average showing. Here is a table showing the per capita gifts to the communions credited with more than 400,000 members:

| | |
|---------------------------|---------|
| Protestant Episcopal | \$38.51 |
| Presbyterian, U. S. A. | 35.42 |
| Presbyterian, U. S. South | 34.59 |
| Congregational | 30.23 |
| Baptist, North | 24.85 |
| Methodist, Episcopal | 24.48 |
| United Lutheran | 24.25 |
| Lutheran Synod, Conf. | 19.20 |
| Lutheran Other Synods | 16.70 |
| Methodist Epis. South | 16.12 |
| Baptist, South | 10.80 |
| Disciples of Christ | 9.59 |

TO STUDY RURAL AFFAIRS.

Columbia University has an endowment of more than sixty million dollars. It has recently set an example, by raising the salaries of teachers, putting them on a scale ranging from \$2,400 to \$12,000. Now comes an announcement of considerable interests to the farmers of the country, in that this great university plans a research institute on rural affairs.

The new institute is the result of recommendations made by Dr. Butler in 1923. He says "the problems of the farmers of the United States or of their relationships to other economic groups cannot have full consideration except in the light of the world situation. Consequently, nothing short of the world point of view will suffice for the scope of the institute."

Another forward step will be the establishment of an agricultural museum. There is no adequate institution of this size in the United States "in spite of the immense variety and fundamental significance of agriculture in our country. The new institute will issue reports and its inquiries will be centered in the following fields: Economics, politics, social and country life aspects and technical agricultural questions. It will have an abundant opportunity to serve the best interests of this country and we are glad to see the step taken by Columbia University."

MR. GARFUNKEL'S ADVICE.

The big business men of Bay St. Louis and those who think they are big business men might take a tip from Max Garfunkel, of New York, who operated a restaurant for forty years. The other day he gave all his restaurants to his children and the second step was the sale of fourteen parcels of land.

This man came to the United States years ago, eleven years old, with fifty cents. He has children and says he has reached the time of life when they have a reasonable expectation of getting his money comparatively soon. "Therefore," he concludes, "I am going to beat them to it and spend some of the money."

More to the point is his observation that "too many men hurry, hurry and hurry until they drop dead. Rush, rush—and then suddenly one day, Poof! and then it's too late." That is the truth about a great many men who work themselves piling up a few dollars that their children will throw away. We commend Mr. Garfunkel's conclusion, after working from five in the morning until eight in the evening for forty years. "Now I am going to travel and see the world, I am going to get out and enjoy life."

This is a good idea for men who have done well in life. They deserve a real vacation.

FRESH FISH AS FOOD.

Fish foods will probably enjoy greater popularity along with improved refrigeration, which will enable shippers to supply interior points with palatable food. Frozen fish, however, should be used immediately as it spoils rapidly as it thaws.

Fish from fresh-water streams are often tabooed by the inexperienced housewife who doubts her ability to select fresh specimens. Marie Soermann, New Jersey housewife, says three things indicate freshness: The eyes should be bright and not sunken in the head, the gills should be bright red and the flesh firm instead of flabby.

If you are unable to obtain fresh water fish, select frozen fish, but be sure it is from a reliable source. Do not buy frozen fish from a street vendor or a small grocery store. Buy from a reliable source, such as a fish market or a large grocery store. Do not buy frozen fish from a street vendor or a small grocery store. Buy from a reliable source, such as a fish market or a large grocery store.

This Week.**Control of Power Sources.**

Frank B. Willis.

War Against Rats.**American Flying.**

BY ARTHUR BRISBANE.

(Copyright, 1927)

Canada's Government encourages use of electric power, particularly on farms and in small communities. Water power is developed fully to generate the current, and all are assisted in its installation.

Farmers are taught to grind feed with it, pump water and do their other work.

And, by the way, United States farmers are urgently invited by the Canadian government to settle in Canada.

Our attention here is concentrated on a different problem. We want to make sure that the right people get possession of our power sources, the right people being those that control power and the people. As to farmers and others that buy and use power, our Government has not found time to think about them.

Prophecy is usually dangerous, particularly dangerous for farmers when government prophecies go wrong. The Government forecast on potatoes last fall predicted a crop greater than the real one. Many farmers sold in a hurry at low prices, some were not marketed, many fed to stock.

Then the shortage was seen, price went up, a few wise people made the money, NOT the farmers.

The sudden death of Senator Willis, in his battle for Ohio's presidential delegates, and tragically one phase of the 1928 campaign.

Senator Willis would have preferred to die fighting. Those that know Secretary Hoover know that Senator Willis' death will cause him sincere grief.

A powerful man, never sparing himself, Senator Willis forgot that there are limits to the heart's endurance. A tired heart often succumbs in the most powerful man, wearied by constant strain.

The dead man's widow attributed the Senator's attack to the fumes of smoky flares that he had been inhaling constantly, in the course of a political parade.

A weak heart, fighting against poisoned air, is in danger.

The League of Nations proposes international war against rats, their complete extermination.

Such a war, made to include mosquitoes and flies, would be the best war in history. It would save every year in lives and money as much as the big war cost in any year.

No more rats, no more bubonic plague. No more mosquitoes, no more yellow fever or malaria.

No more house flies, no more filth dragged over food of young children.

It would be interfering with Nature's plans, perhaps. Darwin says a pair of tropical flies and their maggot offspring can dispose of a lion's carcass in a few hours. Kill all the lions and the flies would not be needed to dispose of the carrion.

George Haldeman and Eddie Stinson, Americans, broke the world's endurance record in the air, flying without stopping fifty-three and one-half hours.

The French Government offers a million francs to any French flier that will win back some flying records formerly held by French fliers.

A little encouragement from our Government would make it impossible for any nation to compete with American flying.

The first flying machine was made here, in Lindbergh was born here. We have the money and engineers. This ought to be the flying nation.

This comes from Italy: "Major de Bernardi has established a new world's air record, 318 3-4 miles an hour."

Will solemn naval gentlemen that call flying machines "only an auxiliary" be good enough to tell what chance slow-moving ships on the surface would have against a flock of airplanes with that speed?

On the great mountain called Nashuan, in Manchuria, far up where air is pure and clear, Japan, as a monument to the new Emperor, will build the greatest astronomical observatory in Asia.

That observatory, with a sixty-inch reflector and thirty-inch refracting telescope, will be a much nobler monument than any rearing horse of bronze.

Dodge Shows Gain in

Quarter of 13,821 Cars

Shipment of motor cars and trucks from the plants of Dodge Brothers in the United States and Canada during the first quarter this year totaled 60,387 units, according to preliminary figures. Compared with the first quarter last year, when 46,569 units were built, the gain in output is 28.34, or 28.3 per cent. The February shipment this year, exceeded the January by 7,964 units, of 62.4 per cent, and March with an output of 26,895 units was 29.8 per cent ahead of February. Compared with the corresponding month of 1927, February showed a gain of 25.9 per cent and March a gain of 102.6 per cent.

Nearly 6,000 men have been added to the payroll since January 1, the figures now standing at 24,124, compared to 18,223 on the first of January.

JUST THE THING.

"Well, then," that man says he's a "chicken."

"Chicken?" Then, then give him a combination of a "chicken" and a "chicken."

"Chicken?" Then, then give him a combination of a "chicken" and a "chicken."

"Chicken?" Then, then give him a combination of a "chicken" and a "chicken."

"Chicken?" Then, then give him a combination of a "chicken" and a "chicken."

THREE THINGS

Gabriel Wells had a Christmas card in which he says that there are three things that constitute a rounded out life: Power, Pleasure and Peace.

The more we think of it the more this seems to be a very good definition.

There is not much satisfaction in a life of no power. What gives zest to sport is the employment of our powers and we all applaud the victor, that is, the man who shows the most powerful. This includes both mental or mental acumen and skill.

As for pleasure, they have learned a great lesson who have found out the abiding pleasures of life are those that come from serving others. The pleasures that we experience in merely receiving gifts or benefits, merely enjoying things that are our own, the pleasures of possession and amusement are temporary and they fade.

But one who devotes his life to bringing joy into the lives of others has an unfailing source of satisfaction.

Peace comes from the firm establishment or connection of life with certain fixed principles. There are some things which, when we have decided upon them, we lay on the shelf. They are not to be reopened. One who is continually arguing the fundamentals is always in hot water and unsatisfied.

That is the advantage of a belief in God. It is something fixed and settled, a central sun about which all of our other thoughts and opinions may revolve.

Of course the belief in God does not imply any congeries of fantastic connotations. One's belief in God may take many forms, but it must have a central core of repose. A life without inner repose is constantly buffeted to and fro by contrary passions.

One who has power sufficient to enjoy his ability to overcome obstacles, who takes pleasure in giving pleasure to others, and who has inner repose enough to keep him content in the center of his being, can be truly said to live a somewhat complete life.

TALE OF TAILS.

Because he brought more tails to the judges than anybody else, Harris Allen was awarded first prize in Booneville's rat extermination campaign. His record was 218.

GOLDEN GLEAMS.

Life is too short for mean anxieties.—Kingsley.

Our life is scarce the twinkle of a star
In God's eternal day.—Taylor.

That life is long which answers life's great end.—Young.

On Life's vast ocean diversely we sail,
Reason the card, but passion is the gale;
Nor God alone in the still calm we find,
He mounts the storm, and walks upon the wind.—Pope.

Dost thou love life? Then do not squander time; for that is the stuff life is made of.—Franklin.

We live in deeds, not years; in thoughts, not breaths; in feelings, not in figures on a dial.
We should count time by heart-throbs.He most lives
Who thinks most, feels the noblest, acts the best.—Bailey.**PROFESSIONAL CARDS**

REAL ESTATE**

Everything you need in Real Estate. Give me a "ring" or drop me a "line" and I will call on you and fulfill your wants.

**Ride in Comfort on
the Train—Leave the
Car for Home Use**

Nothing to worry about when you travel by train. Enjoy all the comforts of your own home; a roomy, easy, restful seat; dining and toilet facilities. Smoke in comfort and read without disturbance. No traffic to watch, no detours, no delays, no dangers. (Not a passenger's life has been lost in a Louisville & Nashville train accident during the past eight years.)

American railroads are providing the highest type of transportation service ever known in the world's history, and at the lowest cost. They deserve your patronage and you owe it to yourself to enjoy the comforts and advantages afforded you by the railroads. You owe it to your family to leave the car at home.

LOUISVILLE & NASHVILLE R.R.

Mississippi Brevities

CRAB CANDY—Sweet-toothed McComb youngsters, looking expectantly to their papas for necessary nickels, were overjoyed last week to learn that a candy factory had opened in their town. Already demand has exceeded the new plant's production limit.

NICE JAILBIRD—Irked at the idea of sitting idle and waxing fat on prison fare while he finished a liquor sentence, James Mansfield is painting the Yazoo county jail and courthouse. Proud Yazooans proclaim him the state's most profitable prisoner.

U. S. SLAPS TICKS—Ticks that suck themselves tight on blood of Mississippi cows will henceforth be given no chance to change their diet to cow blood of other states. After May 1st the federal government will prohibit interstate shipment of ticks, even for immediate slaughter.

STILL ON MAP—Men of Laurel shook their heads vigorously to make sure they were alive last week when into their city from over the South poured inquiries asking if they were "still there." In Mobile, New Orleans, Houston, reports circulated that Laurel had been annihilated by a cyclone.

OFFICIAL SOP—On the floor of a negro cabin in Laurel last week knelt Officer C. W. Valentine, discolored in hand, sopping up whisky. Raided, the cabin's occupant had broken bottles containing "evidence." Quick, thoughtful, Officer Valentine grabbed a cloth, salvaged proof enough for conviction.

SPRING CLEANING—Grease is being scraped from lunch counters, soured milk washed from refrigerator recesses, and rust removed from food containers as Hattiesburg restaurateurs obey a police order to "Clean Up."

BILBO, ADVERTISER—Practicing the preaching he has done to Mississippians on advertising, Governor Bilbo will, during early summer, address the U. S. from a Chicago broadcasting station on resources and opportunities in Magnolia land.

PROFITABLE YARBS—Six thousand dollars for one day's work is the record of a negro "yard" doctor operating in west Covington county. Twenty-five assistants are used by the "doctor" to keep anxious customers from stampeding his country "office."

PIGS AND FIDDLERS—Fiddlers' fingers flicked off "Turkey in the Straw," and hog callers shouted sonorously to their swine in community contests at Caledonia Saturday. Scores of ticket sales were spent on school supplies.

PAGE SHERLOCK—City Detective Van Antone, Vicksburg, played "Who Owns the Hen?" with two furious females. After a day of investigating, spying and questioning, he awarded the fat fowl in question to Mrs. A. George, one of the disputants, because feathers found in her yard were most like those on the hen.

KNOWS HIS CELLS—More sensitive to light than any other instrument ever produced by any man is the eleven-inch photo-electric cell just finished by Mississippian L. P. Garner, Pike county, now in Illinois. Photo-electric cells are used in producing television.

HEAD HIM IN—While his engine waited and panted for him, Silas Vergil, negro fireman on the Gulf and Ship Island, was taken from his cab, at Wiggins and severely spanked for unseemly sauciness toward a white station agent. Subdued, he had no bright remarks to make on his next trip through the city.

MR. GOLIATH BYRD—Despite hospital nurses' indignation and his wife's protests, Scooba's town marshal, Guy Byrd, insists that his youngest son, which arrived last week, be named for Andy Gump's latest offspring, Goliath. Mr. Byrd's young Goliath is an eight-pounder.

BEAN VERSUS BEAN—Beans will compete with beans and tomatoes with tomatoes in a growing contest at Pontotoc. Anxious to keep their canneries crammed during the running season, the Pontotoc Canning Co. has offered prizes to boys and girls whose beans and tomatoes grow fastest and most luxuriantly.

GOOD BUSINESS—From New Orleans into Mississippi this week there chugged a caravan of cars. In them were Orleans manufacturers and representatives of the Crescent City's government. Anxious for Mississippi's good will, good business, they are visiting twenty towns, talking up trade, telling of New Orleans.

GROWING SOME—After discovering that its population has increased fifty per cent in seven years, Eupora has informed the state that it is her fastest growing town. In 1920 there were 387 Euporans; now there are 1,255.

"He's a hard-hearted brute."
"How come?"
"His wife said she was going home to her mother and he laughed out loud."

"Why?"
"He knew that her mother had come home to grandmother the night before."

Dumb? "Don't the football players have their suits washed?"
Dora? "What do you think the scrub team is made of?"

Breathes there a stevedore with so much soul?
Whom even the hounds of heaven have caught?
Answer: "No."

American Forest Week

APRIL 22 to 28

A Proclamation

By the President of the United States of America

For several years a special week has been set apart for public discussion of our forests and of what must be done to safeguard and restore them.

Many of the forested States, with the cooperation of timberland owners, have undertaken organized protection against forest fires; and in recent years, under the Clark McNary law, the Federal Government has given its support to the movement. This great cooperative enterprise must be extended and strengthened until every forested county in the United States is safeguarded against forest fires.

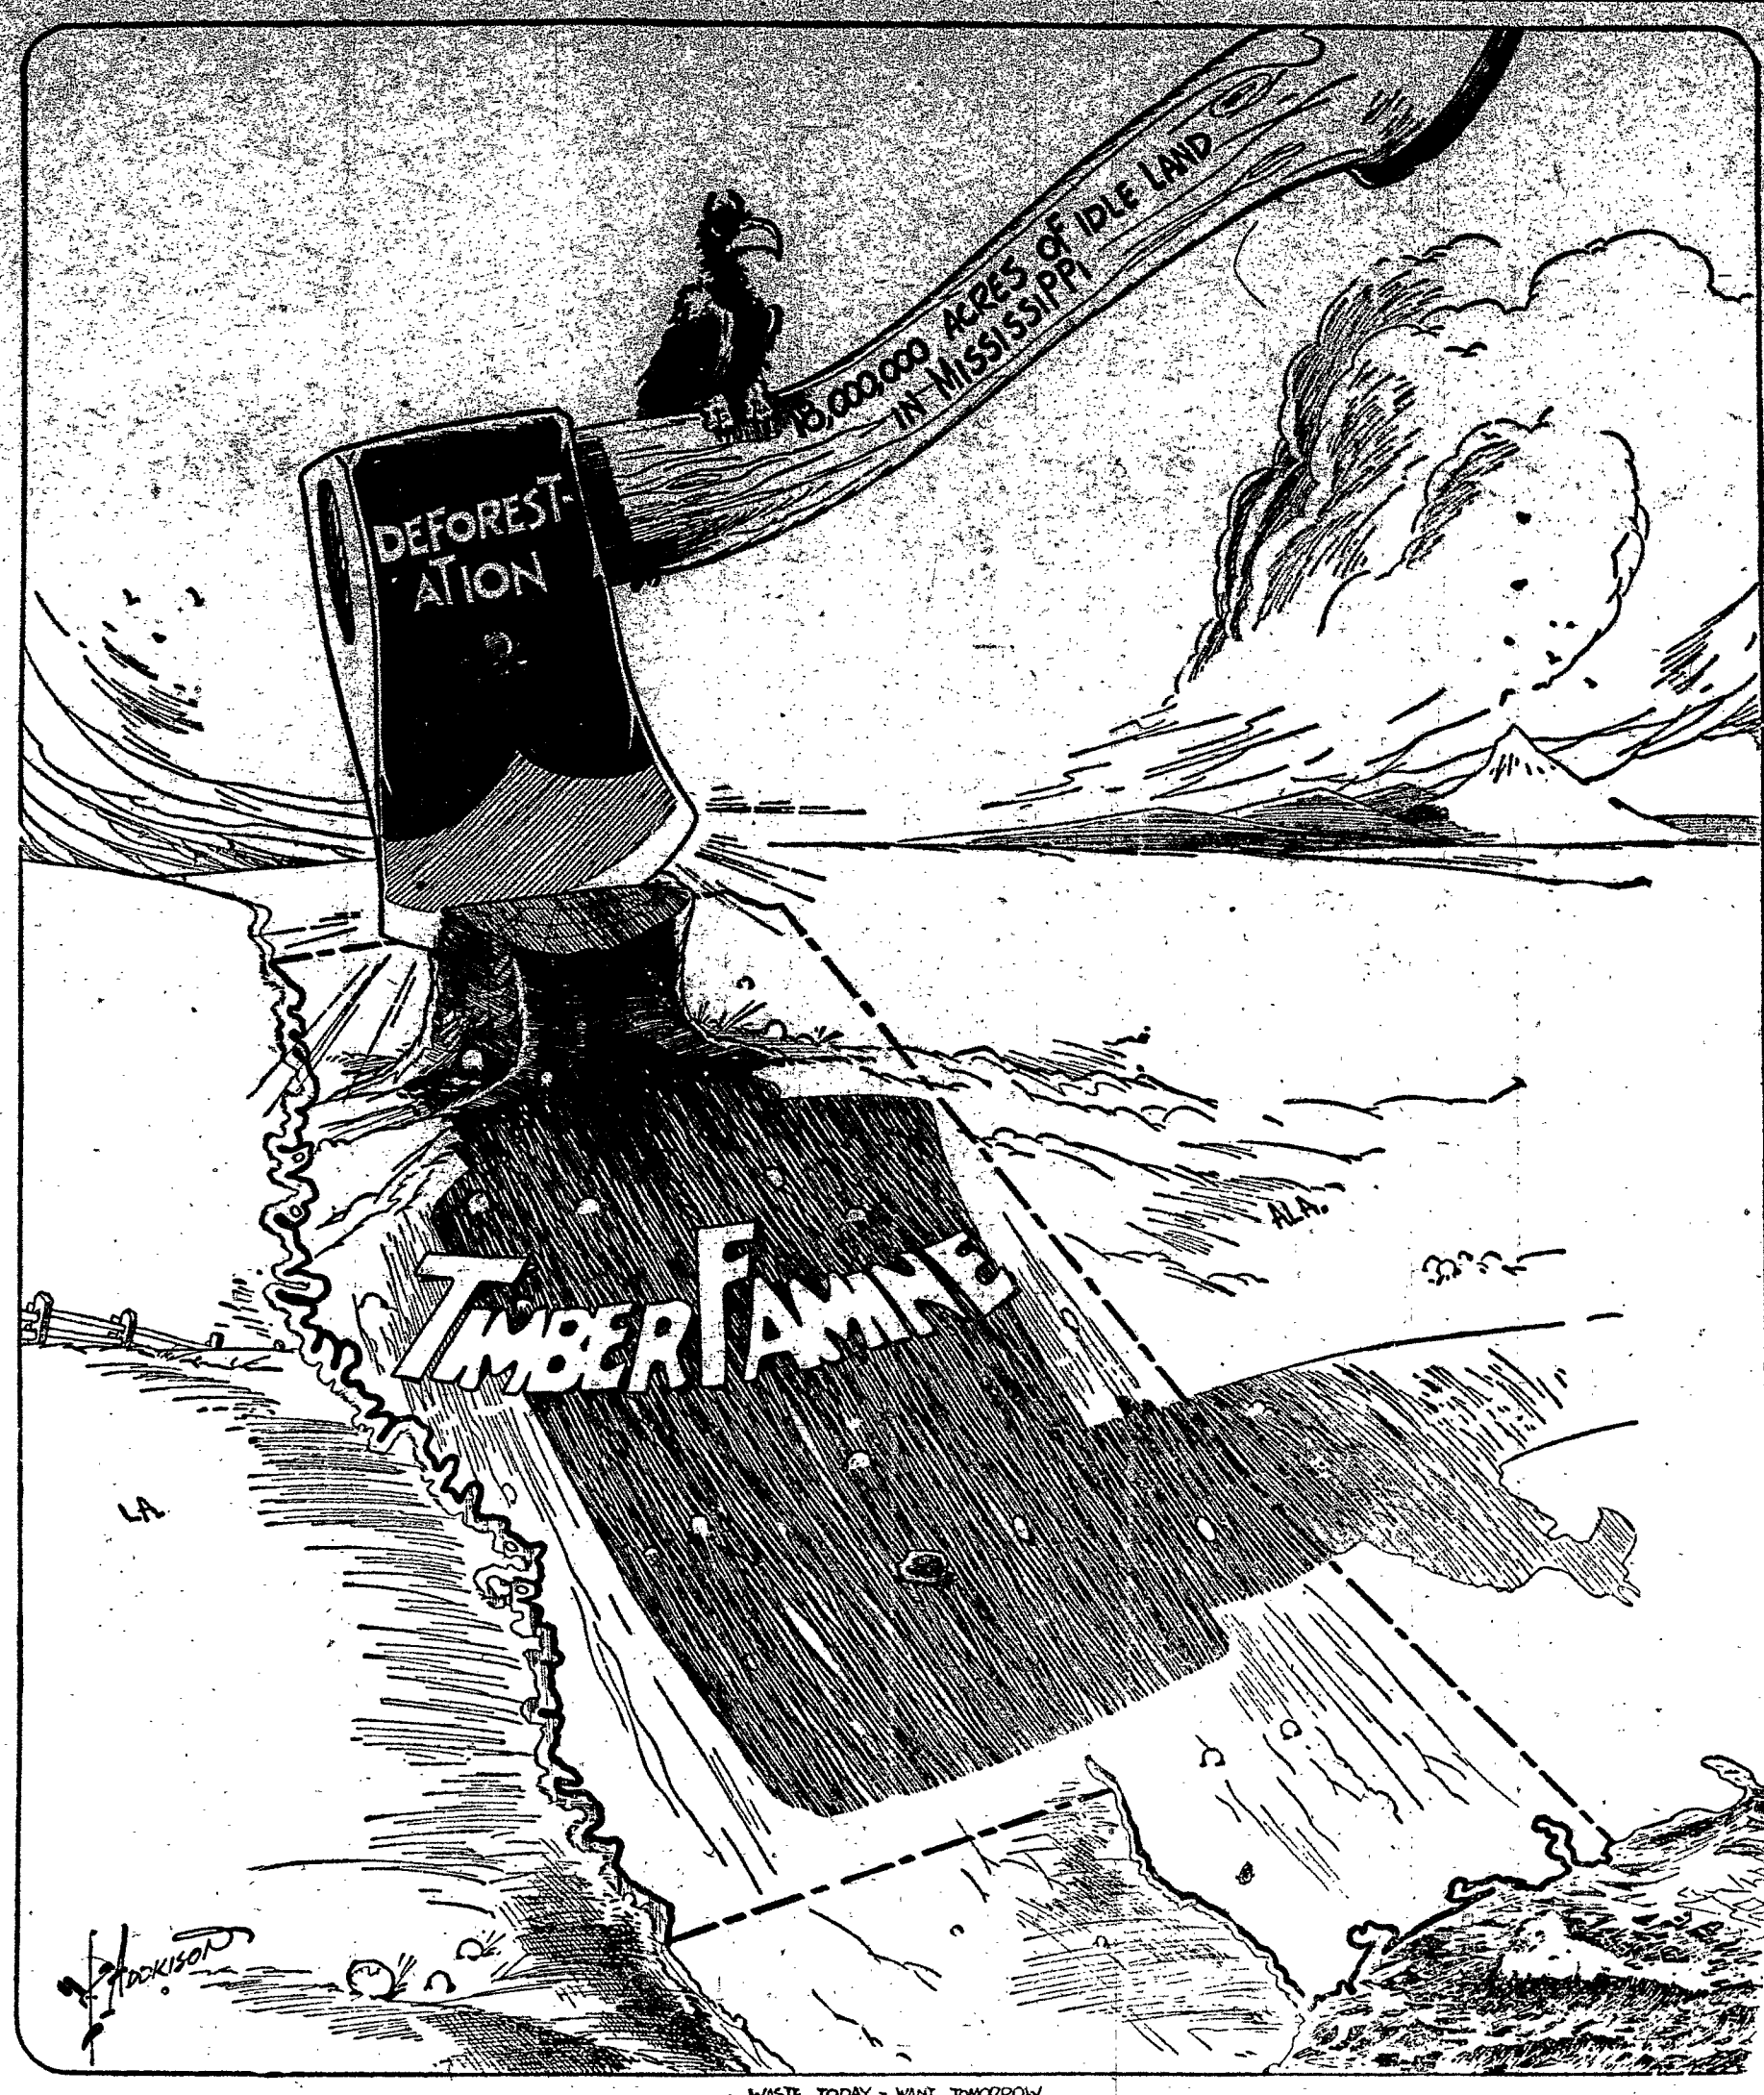

To make our vast empire of forest land fully productive of continuous crops of timber will have momentous consequences in our national life. It will give agriculture the advantage of a new and valuable crop. It will afford permanent employment to millions of men in the forest industries. It will provide raw materials for many industries. It will furnish traffic for our railroads. It will maintain foreign and domestic commerce. It will restore our forests as conservers of soil and water, and as givers of health and pleasure to our people.

NOW, THEREFORE, I CALVIN COOLIDGE, President of the United States of America, do hereby designate and set aside as American Forest Week the week beginning April 22 and ending April 28, in this year of 1928. I recommend to the Governors of the various States that they also designate this week for special observance by all our people; that during that week all citizens and appropriate organizations—including public officials, legislators, business organizations, educators, editors, clergymen, landowners and others—give thought to the preservation and wise use of our forests; to the end that energetic forest policies will be adopted in all communities.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington this 24th day of February in the year of our Lord one thousand nine hundred and twenty-eight, and of the Independence of the United States of America the one hundred and fifty-second.

CALVIN COOLIDGE
President
Frank B. Rowland
Secretary of State

"The Shadow of the Axe"

"The Shadow of the Axe" is by William L. Addison, a Jackson, Mississippi, boy of fifteen. He received his art instruction in the Federal Correspondence School of Minneapolis. Young Addison won seventh place in the AMERICAN TREE ASSOCIATION nationwide poster contest just closed. "The Shadow of the Axe" is a striking example of the potent conveyed to the youthful mind by the spectacle of the denudation of our forests.

ALLOWANCES OF CITY COMMISSIONERS, BAY ST. LOUIS.

Bay St. Louis, Miss., April 2, 1928.

The following bills were examined, found correct and ordered paid, to-wit:

| City Fund. | |
|--|----------|
| Hancock County Insurance Agency, premium on City Hall | \$174.00 |

NOTICE TO CONTRACTORS.

Sealed bids will be received by the Road Protection Commission, Hancock County, Bay St. Louis, Mississippi, at the Courthouse, until 11 a.m. May 9th, 1928, for the construction of certain road protection from Central avenue in Lakeshore, Mississippi, to the end of the wall near the north end of Julia street, west of the corporate line of Bay St. Louis, with the exception of that portion of this roadway that has been paved within the City of Bay St. Louis.

The approximate quantities are as follows:
10,000 cu. Yds. Earth Excavation.
122,000 Sq. Yds. Reinforced Concrete Pavement.
40,850 Lbs. Ft. Combined Curb and Side-walk.
112 Lbs. Ft. 18 in. and 24 in. Concrete Pipe.
Plans are on file in the office of the County Clerk, Hancock County, and at the Consulting Engineer's office, Bay St. Louis. Copies may be obtained at the office of James W. Billingsley, Consulting Engineer, Interstate Bank Building, New Orleans, La., upon payment of \$12.00 which will not be returned.

A certified check for five (5) per cent of the total bid, made payable to the County Clerk, Hancock County, must accompany all bids. The right is reserved to reject any and all bids and to waive technical errors. Bids will be opened at 10 o'clock a.m. at the office of HANCOCK COUNTY, MISSISSIPPI, by R. C. RINGMAN, Chairman. BOARD OF SUPERVISORS OF HANCOCK COUNTY, MISSISSIPPI. BY H. S. WESTON, President. JAMES W. BILLINGSLEY, Consulting Engineer.

NOTICE TO BOND BUYERS.

Sealed bids will be received by the Board of Supervisors of Hancock County, at the office of the clerk of said Board, not later than 11 o'clock a.m. of the day of MONDAY, MAY 7TH, 1928.

For \$25,000.00 Hancock County Road Protection Bonds, bearing interest at the rate of 5% per cent or 5 1/2 per cent or 6 per cent, and maturing as follows, to-wit: \$5,000.00 in the year 1929, \$5,000.00 in the year 1930, \$5,000.00 in the year 1931, \$5,000.00 in the year 1932, \$5,000.00 in the year 1933, \$5,000.00 in the year 1934, \$5,000.00 in the year 1935, \$5,000.00 in the year 1936, \$5,000.00 in the year 1937, \$5,000.00 in the year 1938, \$5,000.00 in the year 1939, \$5,000.00 in the year 1940, \$5,000.00 in the year 1941, \$5,000.00 in the year 1942, \$5,000.00 in the year 1943, \$5,000.00 in the year 1944, \$5,000.00 in the year 1945, \$5,000.00 in the year 1946, \$5,000.00 in the year 1947, \$5,000.00 in the year 1948, \$5,000.00 in the year 1949, \$5,000.00 in COMMENT ON SPORTS

Fifty-two newspaper writers have given their opinion of the National League clubs. Their combined choice gives the pennant to the Pirates, St. Louis, Chicago, and New York bringing in the first division in the order named. Boston, Cincinnati, Brooklyn and Philadelphia is the preference for the other clubs.

By the same method, in which 49 sport editors contributed, the Yankees are picked to repeat, with Philadelphia, Washington and Detroit ranking in order. The second division is headed by Chicago, followed by Cleveland, St. Louis and Boston. Forty-two of the scribes picked the Yankees to win the pennant.

The National contenders in the American race are the Athletics and the Senators. The Yankees have a team of young athletes who should be as good this year as last and may probably be better. The pitching staff may prove a weakness as Penock is no longer a youngster and Shocker has retired. The work of the reserves may mean the difference between winning and losing.

The fight between Washington and Philadelphia for second place ought to be pretty. The Senators are faster and probably have the best pitching staff. Philadelphia's superior hitting strength may prove decisive and the

athletic pitchers will make them feared if they get going early in the season.

The Pirates, in the National League, have hard-hitting, good-fielding and a fair pitching staff. The infield ought to be better than last year, but the success of the club will depend somewhat upon a more thorough discipline.

On paper, the Cardinals have a splendid team, better balanced than the Pirates and with good health and good luck for certain players, will probably beat out the Pirates. The pitching staff is good, the infield fine and the rest of the club even up.

Chicago, with Kiki Cuyler, are also figured as possible pennant winners. The pitching staff is excellent and the team boasts four 300-hitters. The outfield is all that one wants but the infield may prove unsatisfactory.

New York, without Hornsby or Grimes, finds itself rated a little lower than usual in the fight. Nevertheless, McGraw is an asset and may be able to come through. Much depends upon Andy Cohen, who gives evidence of being able to fill Hornsby's shoes and in how the young pitchers come through, McGraw says his team is stronger than last year.

CENTRAL HI SCHOOL NEWS.

WORK—OH! NO—NOT MUCH. Now, that tests are over, everyone is feeling normal again, but examinations will be here in just six weeks, and there are notebooks to be finished, book reports to be handed in and a million other things to be done. The high school English classes have to hand in a theme or a paper on "Is Flood Control an Immediate Necessity?" The Interstate Trust Banking company, of New Orleans, offers a gold medal to a member of the graduating class who writes the best essay. Another medal is offered by the Springfield Welch company for writing the best essay on Lincoln. Both medals will be awarded commencement night.

Miss Collins is offering the Sophomores and the Juniors the preference of writing a theme or "flunking." We think we'll live through it!

MORE WORK IN THE LIBRARY. Who says we do not take pride in keeping our library in first-class condition? The girls are spending a few additional hours working in the book in perfect order and checked up as this is the last term. Most of the pupils are finishing up their collateral readings and turning in the books.

SENIOR NOTES. The end of the high school days draws nearer and nearer for the Seniors. We are so terribly busy with plans and arrangements for commencement that we hardly have time to breathe. We are now planning to give a Senior play two or three nights before commencement.

JOLLY JUNIORS. Have you a nickel? "Take a chance on a nice beautiful cake for just five cents. That's all you can hear" the Juniors saying. Candy was sold last week. This week we are selling sandwiches. Come across—let's for a good cause—Honest it is.

A BIG HIT. The whole town's talking! About what? Why, about "Am I Intruding?" And as for the show—John Barrymore & Co. have nothing on us! We had a crowded house which means a good box office business—a full length three-act comedy, a beautiful setting decorated by Mr. Case, of the Riviera Furniture Co., and a full size orchestra from St. Stanislaus to furnish music between the acts.

Miss Hans is very proud of the way her high school players displayed their talent, and is writing the comments of bystanders in her journal. They read like this: "Wasn't Louis de Armas a darling homebody? Didn't Katie Watts look sophisticated?—Never knew Frank Beeson could make love like that!—Wasn't Dickie (Seals Speer) too romantic?—Valentine Garreau maketh a sweet baby doll!—thuch. Never would you have

Stanislaus and Biloxi Hi Meet on Track Thursday

The St. Stanislaus college track and field team, with one victory already to its credit, will engage in a dual meet with the Biloxi High school team at Biloxi Thursday afternoon. And then on Friday and Saturday the team faces a heavy schedule of two second in four and third in two. The team faces a heavy schedule this season, including a dual meet with the Jesuits of New Orleans and the probability of a meet with the Warren Easton boys of the Crescent City.

Last week in the Gulf Coast regional tournament the Stanislaus boys captured first places out of the total of thirteen events, placed second in four and third in two. The team faces a heavy schedule this season, including a dual meet with the Jesuits of New Orleans and the probability of a meet with the Warren Easton boys of the Crescent City.

Coast Stars Defeat Nicholson Avenue

The Coast Stars were supposed to play the Macabees Sunday, but the latter backed out.

The famous Coast Stars defeated Nicholson Avenue for the third straight game. The contest was close with a score of 9 to 8. Earl Ramond and Salvador Noto played a good game in the field. M. Maurigi pitched fine ball for the Stars. The whole team played well. E. Murtagh, known as a nickname "Irish", is catcher for the Coast Stars.

The Coast Stars will play Bingham on Dunbar avenue Sunday afternoon at 2 o'clock.

For any game wanted with the Coast Stars write to Captain Manuel Maurigi, Box 254, Bay St. Louis, Miss.

JOB FOR AN ACCOUNTANT.

"Did you hear the joke about that fat actress?"

"No, what was it?"

"Her secretary didn't keep the records straight, and now she finds she has had two more divorces than she's had weddings!"—Goblin.

recognized Mac Coward. Didn't Irma Koch uphold her dignity superbly! Look out for Swayze, he's deep! Never saw such a sweet pouty as Pie Ladner. Miriam Summersgill was a perfect specimen of flapperdom—Lucille de Armas was amazing in her difficult role!—etc., etc.

The audience saw the comedy on one side of the footlights, but there was another just as amusing behind the scenes and for it there were only two spectators, Mr. De Priest and Miss Teberne, who have their services in backstage. They saw the wild scramble over wigs, mustaches, grey and brown liners, rouge, powder, constrictor for gray locks, and lipstick—well, that's all in the life of a future Broadway star.

SOPHOMORE NOTES. The Sophomores managed to survive in spite of the terrible tests. The class gave a program in chapel Tuesday. Everybody enjoyed it.

ROCKACHAWS OPEN BASEBALL SEASON

Defeat Morris Pets of New Orleans 9 to 4—Collier Weakens in Ninth.

The St. Stanislaus Rockachaws began the baseball season in an auspicious manner when they took the Morris Pets, a semi-pro team from the Crescent City, into camp by the tune of 9 to 4 in what, for a time, was a close and well-played game.

Egloff opened the mound for the Rocks and twirled for four innings a brand of ball that one looks for only when the season is well advanced and pitchers are in fine fettle. Egg allowed three hits only and was hard boiled when it came to men on bases.

"Cotton" Collier relieved Egloff in the fifth period and was going like a house-a-fire, permitting but two bingles throughout the five innings, but in the last spasm, the stocky Rockachaw lost all his control and walked five batters, forcing in the game taking and the credit of the visitors, the order of which will be seen below.

Cotton was in good form, but it just wasn't Cotton weather. The best it must register anywhere is from 85 to 100 in the shade, and "mud" on the ground from every pore. Aye, that's "Cotton" weather, the sun shining and then some.

Coaches Perkins and "Hippo" Phillips have rounded out a fine team, a team whose initial step-off brands them as comers of the regular old Rockachaw crowd—most any sport along these parts knows what that means. The infield is snappy and alert with Kenner at the first station, Pote Perre over on the key stone, Pizen Toca (looks like he's going to be "pizen" with the willow as he looks like a basket court) in the short field, and the French transportation, Kenner flew to second and Spori hit to short, which forced Hays.

The Rockachaws scored again in the fourth. After Fabacher went down, pitcher to first, Fernandez singled over second and scored when Glover tripled the deep center. Cotton Collier, batting for Egloff, took four wide ones and on a passed ball took second, scoring on Toca's double to left. Toca stole third, but died there when Perre and Hays joined the mortuary column.

The college team kept up the good work in their next inning and tallied three more runs. Kenner went safe on Majuue's error. Spori bunted to sacrifice Kenner to second, but Ercheman threw wild to the key stone and Kenner landed on third. Fabacher, batting for Egloff, took a short and Kenner scored. Fernandez, safe on a bad peg, Glover whiffed. Cotton singled through short, scoring Fabacher and Fernandez.

The locals got one more in the seventh inning. In the eighth, in the ninth, the college team scored three more runs, bringing the final score to 9 to 4.

How the runs were made: Both twirlers were invincible at the beginning. Egloff started the fray by pitching a strike with his first ball and fanning the first man. Escheman could not be fanned by the Rocks batters till the third period, then the machinery got to going. Egloff led off and laced out a double to right center. Toca came up with the "Pizen" stick and slammed out a beauty to left center that netted him a triple. Perre went down short to first. Hays got the French transportation. Kenner flew to second and Spori hit to short, which forced Hays.

The Rockachaws scored again in the fourth. After Fabacher went down, pitcher to first, Fernandez singled over second and scored when Glover tripled the deep center. JUST A CRADLE.

The young married couple entered the furniture store.

Young husband (bashfully)—"We want to look at a bedroom suite for our new home."

Salesman—"Yes, sir. Do you want twin beds?"

Young wife (blushing)—"Heavens, no! Just a small cradle!"

Horace—What is a bachelor, daddy?

His Father—A bachelor, my boy, is a man who looks before he leaps—and then doesn't leap!—Answers.

that no burg of its class in the country possesses.

The way to insure all this is for the people to patronize the games and add their mite to the athletic fund, every dime of which is well placed to the interest of Bay St. Louis.

With the wall finished the next act will be a new grandstand and then Bay St. Louis can boast of something

ing hoping not to be shut out, and their prayers were answered, for with the bases filled by a hit, a walk and an error, Cotton's wing went cold. It just naturally froze, and he started dishing out free tickets to the diamond show till there were a matter of some four, gentlemen from New Orleans who had ambled across the plate. Finally, the wing responded to the pleadings and Cotton whiffed the last man.

The visitors were tickled a seashell pink at the turn of affairs in the last inning, for they had almost despaired of getting a run to keep off a shut-out.

Egloff relieved Ercheman on the mound in the sixth inning and he twirled good ball, striking out three men in that period and two in the next.

Score by innings:
Morris Pets—000 000 004—4 5 3
Stanislaus—001 330 115—9 11 1

Batteries:—Morris Pets, Ercheman, Pradat and Krey. Stanislaus, Egloff, Collier and Glover. Umpire, Gaddy, Mississippi A. & M.

WHIFFS.

Pop Toca came near losing that dollar when "Pizen" lined out that triple in the third inning.

Wop Glover seems to fit snugly in the backstop berth and a little practice getting the ball down to Pote Perre at the key stone will make the kid poison to base stealers.

But the time this team gets in their stride the fans will forget the great diamond students of yesterday—or won't be so ready to do any tank comparing. The 1928 nine are due to make a good front, and can be depended on as the sun grows warmer.

It is our opinion that the two mainstay mound artists in Egloff and Cotton Collier are out to top any twirlers among the high schoolers this year and can be looked for to show some real class against the visiting semi-pros who are due to spread themselves here.

The concrete wall that is one half the way around the park looks like a million dollars already, and by the time it is fully completed will outshine anything of its kind in the South. It is a monument to the untiring energy, zeal and industry of Brothers Regis, Conrad et als. and the scribe is going to suggest that upon completion, a proper plate of acknowledgement be inserted in the wall.

ECHOES FROM THE STATE CAPITOL

Next week will see the end of the present session of the legislature and it will have been one of the longest in the history of the State excepting the sessions during the days of reconstruction and carpet bag rule. Even at that it will be only slightly more than two weeks longer than the 1924 session, but a comparison of the business transacted during the 1924 and the 1928 sessions makes the 1928 session a very enviable one, especially for constructive legislation.

The financial situation at the beginning of this week was in a very unsettled state. The House last week passed two ad valorem tax bills, one providing for six mills for general state purposes; two mills for Confederate pension increase to \$1.00 per day; tobacco, playing card, malt extract tax for the eight months common school term, and the other bills to the Senate. The passage of these bills in the House followed the adoption of the unanimous conference committee report, which recommended that the revenue necessary be provided for in those ways. Five members of the Senate, however, members of the Senate, comprised this conference committee and after hours of discussion and investigation reached its unanimous decision. The Governor was called into the conference, but did not agree with the committee, and this holding out for a general sales tax, which neither the Senate nor the House will accept, if test votes previously had been indicative of the minds of the members of both branches.

Those who are in a position to know say the Governor will veto all these bills. He has already vetoed the ad valorem raise once, but the bill goes back to him as one to provide money for pensions and if he vetoes it again the pension fund must suffer. The pension and eight months school bills have been signed by the Governor and are already law, but if there is not money provided for them, they might as well not have been passed. Leaders in the House feel like the House will override the Governor's veto on these revenue measures, but it remains to be seen what the Senate will do.

The House committee to investigate the alleged lobbies for and against the State printing plant bill has been working diligently and up to Saturday night had heard a majority of the members of the House testify. The testimony offered at this investigation, which is not by any means a one-sided probe as was the Senate investigation, removes all doubt as to the activity of the Governor and his friends to pass the Governor's pet printing plant measure. All through the testimony names of friends of the Governor and his name are mentioned, and while no concrete propositions have yet come to light, the inferences which might be reasonably taken from attempts to change votes for the printing plant bill are obvious. For instance, the testimony of Mr. Coleman from Carroll county brought out the fact that Governor Bilbo had said to him, "Vote for my printing plant bill and I will help you in a dozen ways."

Mr. Reeves, of Pike, a relative of Senator Simmons, author of the printing plant bill, suggested to Mr. Coleman that "Your vote for this bill will help you in the University."

Mr. Price, of Chickasaw, testified that Senator Gerhart, of Lowndes, told him that "If we help the Governor put over his printing plant bill, we get an experiment station." This is one of the charges that appear in the resolution providing for the House investigation. It was also in

Mississippi Long Leaf Pine to Egypt.

A heavy cargo of Mississippi long leaf pine lumber and timber was being assembled on the Gulfport steamship pier this week for shipment to Alexandria, Egypt, on the Swedish steamship Theodora, which arrived in port Wednesday.

The Egyptian market, in common with South African markets, has called for southern long leaf pine from Mississippi several times within recent years.

Bridge Proves Attraction.

It was evident during the Easter week-end the Bay St. Louis bi-county bridge proved the one big feature of the many attractions to visitors from New Orleans and other points to Bay St. Louis and along the other section of the Mississippi Gulf Coast. Hundreds of college boys and girls domiciled at Bay St. Louis for the Easter holidays, as per annual custom, and many on the other side of the bay, and the big toll-free bridge carried thousands of cars both days to and fro. With the bridge finished and dedicated to the public use, it was possible to stop at any one point along the coast and by auto visit the whole strand by auto and at will. For the summer the Bay bridge will be the means of attracting many visitors here.

Coast Golf Courses Popular.

Local interest in the Great Southern Country Club, on the beach front between Gulfport and Biloxi, was stimulated this week when an unprecedented number of Gulf Coast applications for membership were received.

The extensive golf course at the country club heretofore has been used in large measure by visiting tourists. The lack of a golf course in the immediate section of Bay St. Louis is frequently commented upon.

THE PROPER TIME.

Molly—Are you sure that Fred loves you, and you alone?

Kathleen—Oh, yes; more than at any other time.—The Pathfinder.

of Marion, when he attempted to question the members of the Committee. Mr. Hammond became very vitriolic in his remarks, but was soon quelled by the Committee, who rather felt sorry for him and were not disposed to censure him. He is a young man and this is his first session.

Speaker Bailey is being widely complimented upon the personnel of the House investigating committee, especially as to his fairness in selecting men without regard to factional lines or votes on the printing plant bill. Mr. Harris, of Hinds, chairman of the bill, did not vote on the printing plant bill; Mr. Sillers, of Bolivar, voted against it consistently; Mr. Gore voted once against it and once for it. Mr. Snider voted consistently against the printing plant bill, but supported Bilbo for Governor. Mr. Evans, of Harrison; Mr. Bounds, of Lauderdale; and Mr. Yeager, of Lamar, voted consistently for the bill and the latter two supported Bilbo for Governor. Therefore, it cannot be said that the House committee is stacked. In fact, many say it is like the Indian, so straight.

The contrast of the House investigating committee to the Senate Committee, especially as to their votes for the printing plant bill is very noticeable when the fact is known that of the seven members of the Senate committee, six of them voted for the bill and only one, Senator Hardy, of Byhalia, voted against it. It has not been said, so far as the correspondent has heard, that the Senate committee leans back.

Hints for the Home

by Nancy Hart

(For The Sea Coast Echo)

Two serving secrets that are time-savers for the home-maker may be summed up in these few words:

Prepare foods beforehand whenever possible, so all the fussy work is done during the "cleaning-up" part of the day. Then when ready to serve, one need only lift the dishes out of the oven or refrigerator and place them on the table.

Escalloped and casserole recipes, meat loaf, custards and tapioca desserts lend themselves well to this scheme.

Another short-cut is offered by the compartment plate. Meat, potatoes, a green vegetable and a salad can be artistically arranged on the plate. Then when dessert is in order there is but one dish to remove from each place. This adds tremendously to the efficiency of a meal, and makes easy, pleasant service for all concerned.

Ham and Chicken en Casserole.

In a well-buttered casserole put diced chicken and ham. Mix with cream sauce; cover with grated cheese and crumbs and brown.

For cream improve with tablespoons of butter or margarine, same of flour, 1 cup milk, salt and pepper. Blend as usual.

Try These New Easter Eggs.

Amber, emerald and rose-colored eggs of jelly are the latest things in the nest. To make them "glow" the contents from uncooked eggs and seal one end with paraffin. Dissolve flavored gelatin as usual; when cool pour into egg shells and allow to set. To serve, remove the shell from the filling; garnish with whipped cream and maraschino cherries.

Does Your Oven Scorch Cakes?

If bread, cakes and biscuits have a habit of scorching in your oven, set a small pan of salt under the tins and note the improvement in baking.

Milk Brightens Silver.

The silver will be much brighter if you add a little milk to the water in which it is washed.

When the Pan "Sticks."

Never scrape a scorched pan. Just sprinkle baking soda over the spots and set aside for a while. The food will soon loosen up and the pan may be easily cleaned.

For Sparkling Windows.

A few drops of vinegar added to the water when washing windows gives a fine brilliance to the glass.

Pictures Invade the Kitchen!

Since kitchen and cooking equipment have become so colorful, pictures have come into the kitchen, too. Cheery scenes they are—a sunny road winding over country hills; a glimpse of an old-fashioned garden; a holiday at the beach, perhaps. They help—wonderfully—during working hours.

HOT DOGS!

Lost—Full-grown dark gray police dog named "Ted." Reward if returned—Food & Relish Co.—Philadelphia Inquirer.

FRANK.

Judge—Well, John, I can give you this divorce but it will cost you \$3. John—Three dollars, boss?

Judge—That's the fee.

John—Well, boss, I jes' tell ya, I don't believe I wants no divorce.

There ain't \$3 difference 'tween dem two wimmen.—Alabama Rammer Jammer.

Price 25c.

Just Tottering, So Weak

"I was in a bad state of health and was going through a critical time of my life," says Mrs. Ella Scarborough, R.F.D. 5, Dothan, Ala. "Several different things were recommended to me, but I did not get any real relief until I began to take Gardui.

"I was just as weak as could be. My legs were shaky, and often I would just totter around the house. I finally got so bad that I was in bed several weeks.

"It was then that I began to take Gardui. I kept it up for quite a while, and at last I regained my health. Gardui was certainly a friend to me in time of need.

"My health is splendid now, and I seldom have to use medicine, but I gladly say a word about Gardui whenever I find a friend going through the same suffering which I endured."

For safety, ask your druggists.

ACTIVITIES OF CLUB-WORK AMONG NEGROES.

County Demonstration Work.

Club work among the girls and women of Waveland and Fenton communities has made quite a creditable showing this week.

At the regular club girls' meeting held at Waveland in which the boys are allowed to take part, a splendid health program arranged by the home demonstration agent, Bessie Rainey was rendered.

This program was made up of health songs and recitations, rendered by club members. A splendid talk on the "Origin of National Negro Health Week" and how we may observe it was given by Anny Holmes, teacher of the Waveland school. Bessie Rainey spoke on "How Boys and Girls May Become Healthy, Strong and Beautiful Men and Women," after which she taught a few educational games like Buzz and checked up on project work.

The colored women of Waveland are now working on the home beautiful campaign, launched for their community.

Early in March arrangements for this campaign were worked out by the Home Demonstration Agent and E. Miles, the chairman of the Better Home campaign. The club members readily accepted the plans and began working the following week.

The work among the colored boys and girls of Fenton included a health program, community picnic, spring exhibit and school closing.

FLAT TOP CLUB NEWS.

The Flat Top Club met Tuesday at the home of Mrs. Bertha Martin. A real interesting program was rendered. The meeting was called to order by the president, Mrs. Pittman was to discuss reforestation, but was absent. Choice and arrangement of furniture was presented in a simple way by Mrs. Maude Wheat.

Mrs. Bertha Martin told us about draperies and upholsteries. The demonstration was ably carried out by Mrs. Clyde Wheat (new ways to make rugs).

Mrs. C. Wheat and Mrs. Mary McArthur were called on to discuss the helpful things learned at the Home-makers training school, that some of the members failed to attend on account of sickness.

There was also a round table talk on "Observations of Other Communities." It was decided that we would do well to copy some of the beautiful yards seen on the Coast.

We had a good attendance. Mrs. Martin makes such a delightful hostess. We hope to meet with her again. There's a nice program on for May and we hope to have all members present at Mrs. Maude Wheat's.

Interesting L. & N. Statistics

Statistics published in the L. & N. Employees' Magazine for March show the Louisville & Nashville Railroad enjoyed 53 per cent reduction in fatalities among its employees and 15 per cent reduction in lesser injuries. A reduction of 75 per cent under 1927 has been set as the goal for 1928. To help attain this goal the Mechanical Department of the L. & N. announces a "no-accident" campaign for the month of April. "Pep" meetings, poster and placards and personal appeals will be used in an effort to get the approximately 18,000 employees of the Mechanical Department through the month of April without a personal injury.

Where to List for Results

I have ready buyers for Bay St. Louis and Waveland property. List your property with me for results. It will pay you.

County Republicans Hold Convention.

A convention of Hancock county Republicans, Perry Howard faction, was held Saturday at Promote Hall in Bay St. Louis, at 10 o'clock.

The convention was presided over by L. J. Piernas, chairman of county executive committee, which trust he has held for forty years.

The following delegates were elected to attend the State convention at Jackson, April 18th: L. J. Piernas, Rev. H. H. Crowe.

To district convention, Sixth Congressional district: Rev. A. L. Holland and Walter Benoit.

A new county executive committee was selected.

PAMPERED WIFE.

"I suspects P's emperin' mah wife too much."

"Is dat a fact?"

"Yas, I done taught her a washin' machine."

—Life.

"What's so artistic about that old pipe of yours?"

"It draws well."

Washes, Carries Coal

Woman Gains 18 Pounds

"I wash, iron and carry coal and don't get tired since taking Vinol. Also, I have gained 18 pounds."

—Mrs. S. Cortese.

Vinol is a delicious compound of cod liver peptone, iron, etc. Nervous, easily tired, anemic people are surprised how Vinol gives new pep, sound sleep and a BIG appetite. The very FIRST bottle often adds several pounds weight to thin children or adults. Tastes delicious.

UNMUSICAL.

"Are you fond of music?"

"Not very," confessed Senator Sorghum. "I never yet saw a brass band or an orchestra that wouldn't play as energetically for one side of an argument as it would for the other."

—Washington Star.

Sap: "Look at Freshie. He's wrapped in thought."

Nap: "He must be schilly—so thinly clad."

A SURE SIGN OF A BETTER MOTOR OIL
